## Important Information Regarding COVID

This is the latest guidance from the Department for Education, set out by the Secretary of State for Health and Social is:

- adults with the symptoms of a respiratory infection, and who have a high temperature or feel unwell, should try to stay at home and avoid contact with other people until they feel well enough to resume normal activities and they no longer have a high temperature
- children and young people who are unwell and have a high temperature should stay at home and avoid contact with other people. They can go back to school or childcare when they no longer have a high temperature, and they are well enough to attend
- adults with a positive COVID-19 test result should try to stay at home and avoid contact with other people for 5 days, which is when they are most infectious. For children and young people aged 18 and under, the advice will be 3 days

Please note, we are no longer able to hand out test kits to staff, or families from today, unless we are advised by the local health protection team, local authority or director of public health.
